1. 1st Battalion, 24th Marine Regiment (M14160) received an virtual/remote assistance of Consumer Level Supply Management and Field Level Ground Equipment Maintenance from Field Supply and Maintenance Analysis Office - East (FSMAO-E) from 4-15 May 2020. Procedural compliance was assessed using statistical sampling of records and equipment. The virtual/remote assistance results by category are as follows:

Property Accountability	64.68%
Procurement	79.89%
Maintenance Program and Resource Management	54.20%
Maintenance Information and Reporting	88.80%
Maintenance Production	88.00%
Miscellaneous Accounting	83.33%
Distribution Management	N/A

2. Enclosure (1) provides a summary of the unit's overall performance in the categories assessed below 85% compliance along with specific recommendations to correct the discrepancies. Any category that is evaluated below 85% requires a corrective action plan. Enclosures (2) through (9) contain amplifying details regarding the discrepancies that led to these assessments.

3. The virtual/remote assistance results directly correlate to the sample sets provided by your unit. Analyzed Key Supporting Documentation (KSD) and samples dated after the unit received the KSD and sample request were computed as noncompliant.

4. Point of contact for this report is (b)(6)
